

eWiSACWIS Release Highlights

November 10, 2018

Below you will find the highlights of the upcoming eWiSACWIS release. These highlights include changes that affect workflow, data entry, procedures, and reporting. Some of the changes are the result of policy changes, legislative changes, eWiSACWIS Team input, and issues reported to the help desk by users.

Topic	Description
Medicaid Eligibility	<p>39621: Change in logic for assignment of Med Stat codes for children in subsidized guardianships (SG) and the automation of Medicaid certification creation/cancellation for SG children.</p> <p>Certification: A new agency value will be added to the Medicaid certification page drop-down of 'DCF Subsidized Guardianship.' If the agency is set to 'DCF Subsidized Guardianship' for a Certification, and the Med Stat Code is 'KC' or 'KG', the 'Certification To' date will be set to the last day of the child's 21st birthday month.</p> <p>Case Closure: If the following case closure reasons are selected and approved, the ICPC Pre-Adoptive Child case will be closed and no new case will be created.</p> <ul style="list-style-type: none"> • ICPC Child Adopted with AA from WI • ICPC Child Adopted with Non WI AA • ICPC Child Adopted with Non WI SG <p>Agreement Ending: Upon save of the final approval of the ending of an Adoption Assistance Agreement or a Private Adoption Agreement, the child's active Medicaid certification will automatically be cancelled three months after the agreement end date.</p> <p>Agreement Reopening: Upon save of the reopening of an Adoption Assistance Agreement, Subsidized Guardianship Agreement, Private Adoption Assistance Agreement, or a Successor Guardian Agreement, Medicaid certification will automatically be created for the child. The 'Certification To' date will be set to the last day of the child's 21st birthday month, with a status of 'Ready to Send.' A new automated message will generate if the active Primary Residence address is out of state – "Medicaid Enrollment – Out-of-State (AA & SG)".</p> <p>SG Eligibility: Upon save of an SG Eligibility Determination with a status of 'Continue Payment', Medicaid Certification will automatically be created for the child if there is no active certification. The 'Certification To' date will be set to the last day of the child's 21st birthday month. Upon save of an SG Eligibility Determination with a status of 'Suspend Payment', Medicaid Certification will automatically be cancelled three months after the eligibility determination date.</p> <p>Out of Home Placement: If a Removal Placement is made in error, and the child's MCI ID matches the MCI ID of any child with an open adoptive service, the "Adoptive Child Discharged from Out of Home Care" automated message will generate. If a new removal placement is approved, and the child's MCI ID matches the MCI ID of any child with an open adoptive service, the "Adoptive Child Entering Out-of-Home Care" automated message will generate,</p> <p>Address Management: If the child's active Primary Residence address is updated and saved where the state is not Wisconsin, the "Medicaid Enrollment – Out-of-State" automated message will generate, even if there is no active Medicaid certification.</p> <p>Person Management: For a person with an active MA Certification, if changes are made to the first or last name, SSN, or MCI ID, a new MA Certification will automatically be created.</p>

Desktop	<p>Additions to the Actions drop-down next to each case:</p> <ul style="list-style-type: none"> • 40292: Case Face Sheet Report • Imaging Search <p>40381: Remove the value of Maintain Participant from the Actions drop-down when an individual is in participant view.</p>
Person Management	39950: Modify the Education Notification page to add District Address, School Name, and School Address fields. The address fields will prefill once the school district and school are selected by the worker.
Access	39975: On the Prior Involvement tab of Access Reports, add a column next to Case Name to display the name of the Primary Worker on all open cases.
Imaging	<p>40123: Ability to print jpeg, gif, tif, and bmp images directly from the application.</p> <p>39891: Change in imaging category from ICPC Referral to Imaging for Individualized Education Plan (IEP) and Permanency Plan. When the Documentation value is set to IEP, the Type will be defaulted to IEP under the category of Education. When the Documentation value is set to Permanency Plan, the Type will be defaulted to Permanency Plan under the category of Legal Document.</p>
Ticklers	<p>37787: Confirming Safe Environments (CSE) and Reconfirming Safe Environments (RCSE) ticklers will move from the Planning category to the Safety category.</p> <p>39946: Child/Youth Image ticklers will no longer be duplicated.</p>
Private Provider	39749: Instead of having the images directly on the private provider page, there will be an imaging search hyperlink which will open up the imaging search page with that 'employee' selected
Unlicensed Relative to Kinship	<p>34613: Adding three new end reasons on the Service Ending page to allow workers to more easily shift between Relative Unlicensed and Kinship placements with the same provider. The new end reasons are as follows:</p> <ul style="list-style-type: none"> • Replace with Court Ordered Kinship • Transfer to Court Ordered Kinship • Transfer to Relative Care Unlicensed <p>The ending reasons displayed are dependent on the child's current placement. Ending a placement with one of these end reasons will automatically create a new fully approved placement with the same provider. If the provider does not have the active Court Ordered Kinship or Relative Care Unlicensed service type for the county of the placement, this process will automatically add or activate it. When 'Replace with Court Ordered Kinship' is selected as the end reason, the placement will be marked as 'Made in Error' but no other work will be made in error (i.e. CANS, CSE, etc.) and no pending work will be removed.</p>
HTML5 – Browser Neutrality	<p>The migration of pages to HTML5 continues with this release. Converting eWiSACWIS pages to HTML5 will allow for future compatibility with other browsers and the ability to adapt to smaller screens on mobile devices. The following pages have been migrated with this release:</p> <ul style="list-style-type: none"> • Maintain Case • Approval Messages • Case Merge • Case Merge Delete • Delete Person • Potential Duplicate Person • Person Merge Delete • Resource Links • Task • Tickler Management • View Ticklers • Search Provider Organization • Search Case • Imaging • Home Provider • Home Study/Home Study Recertification
